

# AYA HONNIT

Software Engineering student and aspiring Frontend Developer passionate about building responsive and user-friendly web applications. I enjoy combining design and logic to create clean, efficient, and engaging digital experiences. I am continuously learning and improving my skills in modern web technologies.

## Projects & Practical Experience

### E-commerce Website

Developed a simple e-commerce website as part of my learning journey, focusing on responsive design and user-friendly interface using HTML, CSS, and JavaScript.

### Vending Machine Simulator

Built a basic simulator project that mimics a vending machine system logic, including product selection and simple interaction flow.

### Graphic Design Projects (Photoshop)

Designed flyers, logos, and social media posts using Adobe Photoshop, focusing on visual identity and creativity.

### Personal Portfolio

Created a personal portfolio website to showcase my projects and skills in web development and design.

## Education

### Higher Institute of Computer Engineering (SUP ISI)

2025 – 2026  
First-year student in Computer Science (Informatics Engineering).

### Faculty of Science – Mathematics and Applications

2024 – 2025  
Completed first year (Mathematics and Applications)

### Baccalaureate in Physical Sciences (Sciences Physiques et Chimiques)

2024  
High School Diploma
